Pineapple Holiday Ham

1 fully cooked ham (3 to 5lb)

1 can sliced pineapple – saving the juice

1 ½ c. to 2c. brown sugar

whole cloves

Score the top of the ham, using a sharp knife making a ½” to ¾” square grid on top and slightly down the sides of the ham.

Poke 1 whole clove into the corners of each grid.

Place in cooking pan.

Dampen the top of the ham with a small amount of the pineapple juice.

Use your hand to press the brown sugar onto the ham.

Secure the pineapple slices to the top of the ham with wooden toothpicks. Extra slices may be placed in the pan.

Pour the remainder of the pineapple juice into the pan.

Bake in a very slow (275 degree oven) for 1 ½ to 2 hours, basting every 15 minutes with the pineapple juice.

Cool for 10 minutes before slicing.

Slice thin and garnish with pineapple slices before serving.

Roasted Turkey

Select turkey of desired size.

Thaw as directed.

Wash thoroughly, making sure the cavities (neck and body) are clean.

Pat dry with paper towel.

Save the giblets to cook for broth, dressing and gravy.

With your hand, coat the cavities with salt.

Place in roasting pan which has been sprayed with a non-stick coating.

Rub butter or shortening on exterior.

Cover with lid or foil.

Bake in a slow oven - 275 to 325 degrees.

About 1 hour into the roasting, add a small amount of water.

Baste frequently during baking with juice from the turkey.

Baking time will depend on the size of the turkey.

Turkey is done when the legs and thighs pull away from the rest of the turkey.

If necessary, uncover for the last few minutes to finish browning.

Dressing may be put into the cavity about 1 - 1 1/2 hours (again, depending on the size of the turkey) before the turkey is finished roasting.

Cool for 1/2 hour before slicing and serving.

Rapidly whisk into boiling broth to keep it from becoming lumpy.

Oyster Dressing for Turkey

Sage Dressing for Turkey

1 - 2 loaves of bread (or more as needed, either regular white or thin sliced), broken into small pieces and dried for several hours. (Do **not** use buns)

1 to 1 ½ c. celery chopped (a few celery leaves add flavor)

1 medium onion diced.

Wash and cover the giblets with 2c. salted water and cook covered until tender, adding water as needed. This too may be done in advance.

Mix together in a large bowl: The dried bread, 4 to 6 eggs – well beaten - to which has been added the warm broth from the giblets.

Add the celery and onion with juice which has been warmed.

Stir well.

Season with salt and dried rubbed sage to taste (start with 1t.- 2t.).

This needs to be a very soft juicy mixture. If not moist enough (and it usually is not), add broth from the turkey or canned chicken broth.

This may be used as stuffing for the turkey - placing in the cavity about 1 to 1 ½ hours into the baking, or cooked in a greased baking dish (covered) for 45 minutes to 1hr. in a moderate oven.

Left Over Turkey Hash

In a saucepan, place turkey, which has been cut in bite size pieces, leftover dressing and gravy (or broth).

Add broth or water to thin.

Be sure it is quite “soupy”.

Cook for 15 minutes on low heat stirring as needed to keep from sticking.

Put in a greased casserole dish and cover with prepared biscuits, either Bisquick™ or refrigerator biscuits.

Bake as for biscuits.

Remove from oven and serve immediately.

Weights and Measures

For all our friends and neighbors, here is a handy Chart to eliminate any of those pesky conversions to metric, compliments of the U.S. Department of Commerce.

The most frequent measurements made in the home are those used for cooking and baking. Metric "cup and spoon" measures are only slightly larger than, and can often be used interchangeably with, the customary "cup and spoon". There are only a few ingredients that are now measured by weight (pounds and ounces) that will be expressed differently in metric recipes.
